

Skylight Sound has been support community and educational theatre for around 15 years.

During this time the amount of equipment has continued to grow.

More recently we have purchased new and used lighting and comms equipment to further support groups who are often unable to hire in costly items.

The information contained this leaflet give an overview of the main equipment available. It doesn't include an inventory of cabling, connectors and consumable items however these are all available when using the equipment.

Lighting

	No.
Martin Mac 250	2
